Tree Work Request

This form is to be utilized for **non-emergent** tree work. Non-emergent meaning the tree(s) are not an immediate service reliability threat or public safety hazard.

Member understands the following:

- PEC may trim/cut trees/limbs that may endanger power lines or overhead equipment.
- PEC evaluates each tree work request in person to determine when/if a crew should be dispatched to the location to perform tree work.
- The tree(s) must be marked upon sending this form to PEC.
- The tree work that is requested on this form may or may not be performed.
- If work is performed, PEC will not clean up the tree/branches/leaves.
- PEC's primary business is providing reliable electric service, not removal/trimming of trees that are not directly interfering with that service.
- PEC may choose to drop the electric line so you or your tree contractor may perform the tree work.

Member Name: _____ Account #: _____

Service Address: _____

Phone #: _____

Indicate the location of trees and how they are marked:

I request trees be: Removed Trimmed
